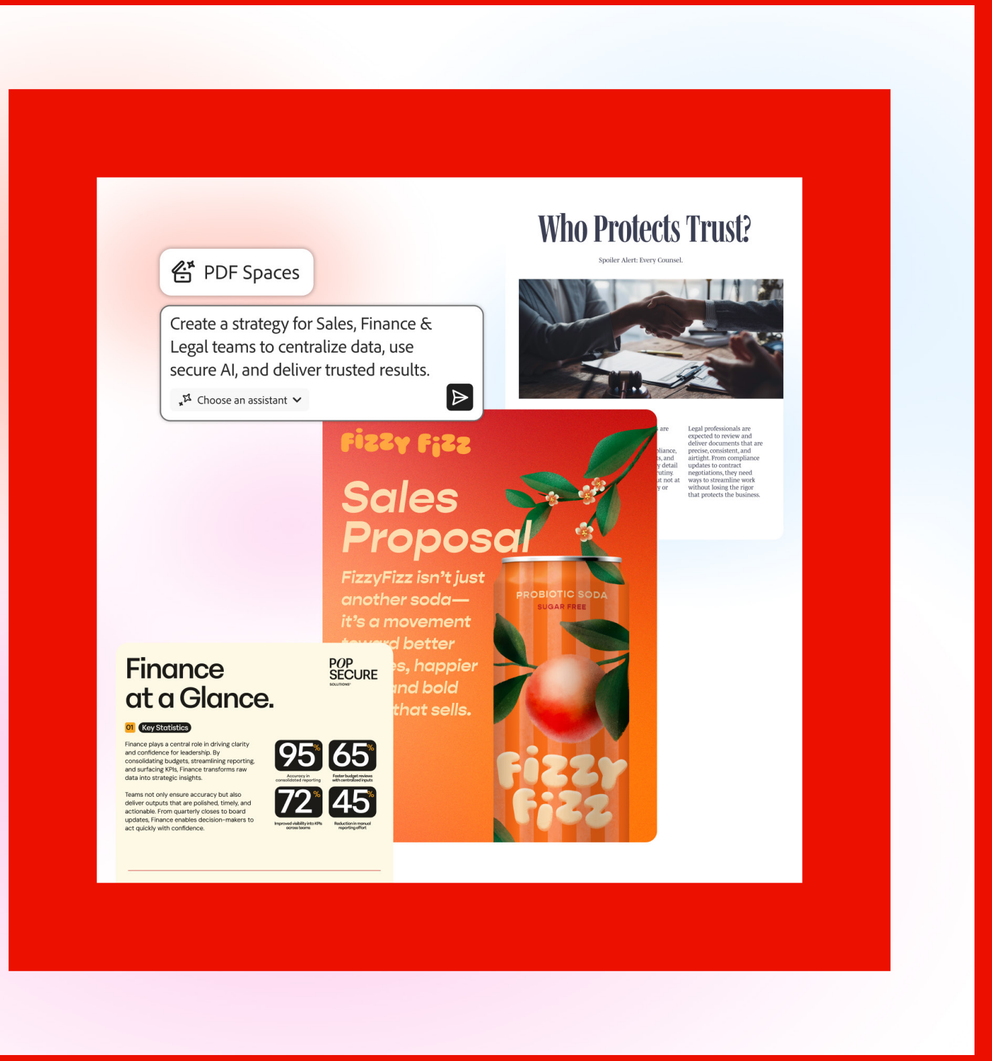
Get to Know Acrobat Studio



Session summary

In this webinar, Lori DeFurio introduced Adobe Acrobat Studio, the newest addition to the Acrobat family, designed to enhance productivity for business professionals. Attendees explored key features such as PDF Spaces, which allow users to organize, analyze, and collaborate on up to 100 files in various formats, and AI Assistants, which provide tailored insights, summaries, and content validation.

Acrobat Studio integrates Adobe Express for creating polished, branded presentations and documents, and highlighted its accessibility across desktop, web, and mobile platforms. Real-world use cases, including legal updates, sales proposals, and financial reporting, showcased how Acrobat Studio simplifies workflows and saves time while ensuring accuracy.

Key takeaways

PDF Spaces for organization.
Centralize up to 100 files in various formats to streamline document management and collaboration.

Custom AI Assistants.
Create tailored assistants to analyze, summarize, and provide actionable recommendations for specific tasks.

Adobe Express integration.
Use tools like Create from Template and Generate Image to produce branded, polished presentations and reports.

Cross-platform functionality.
Access features like AI assistants, editing tools, and PDF Spaces seamlessly across desktop, web, and mobile devices.

Step-by-step demo tutorials

Creating a PDF Space

1. Open Acrobat Studio and go to the homepage.
2. Select Create PDF Space.
3. Add files by selecting them from your device or dragging and dropping them into the space.
4. Copy and paste URLs to include links in the PDF Space.
5. Add meeting notes, photos, or other digital content as needed.
6. Organize the files and links within the PDF Space.
7. Refresh the PDF Space to ensure all added content is included in the analysis.
8. Save the PDF Space for future use or share it securely with team members.

Step-by-step demo tutorials

Creating a Custom AI Assistant

1. Open Acrobat Studio and navigate to the AI Assistant tool.
2. Select Create New Assistant.
3. Enter a name for your assistant (up to 250 characters).
4. Provide a description of the assistant's purpose (up to 500 characters).
5. Add instructions for the assistant (up to 1,000 characters).
6. Save and apply the assistant to analyze the content in your PDF Space.
7. Start chatting with the assistant to generate insights and summaries aligned with your focus.
8. Save generated insights as notes or copy them to the clipboard for further use.

Step-by-step demo tutorials

Generating a Summary with AI Assistant

1. Open your PDF Space in Acrobat Studio.
2. Select the AI Assistant you created.
3. Ask the assistant to generate a summary of the content in the PDF Space.
4. Review the generated summary and verify its accuracy using the attributions provided.
5. Highlight or save specific sections of the summary as notes.
6. Copy the summary to the clipboard if needed for other documents.
7. Share the summary with team members for review.
8. Use the summary to create reports, memos, or other materials.

Step-by-step demo tutorials

Setting Up a Branded Presentation

1. Open Acrobat Studio and navigate to Create Tools.
2. Select Create from Template.
3. Choose a template that fits your needs, such as a sales presentation template.
4. Replace placeholder text with your content by typing directly into the template.
5. Resize or adjust text as needed to fit the design.

Customizing Images and Icons

1. Replace images by selecting the image, clicking Replace, and choosing a new image from your brand graphics or generating one.
2. Add icons by selecting Element, then Icons, and searching for the desired icon.
3. Save the presentation and share it with your team for review.

Step-by-step demo tutorials

Setting Up a Financial AI Assistant

1. Open Acrobat Studio and navigate to your PDF Space containing financial documents.
2. Create a custom AI assistant and name it (e.g., FNA Analyst).
3. Provide a description and instructions for the assistant to focus on financial metrics and insights.
4. Save and apply the assistant to analyze the content in the PDF Space.

Generating and Using the Report

1. Ask the assistant to generate a concise report summarizing key financial metrics, risks, and recommendations.
2. Save the generated report as a note for easy access.
3. Use Adobe Express to create a report template with charts and tables.
4. Add the summarized data and customize the design using brand colors and elements.

Step-by-step demo tutorials

Using Acrobat Studio on Mobile

1. Open the Acrobat mobile app on your device.
2. Access existing PDF Spaces or create a new one by adding files, links, or notes.
3. Use your phone's camera or Adobe Scan to capture and add documents or images to the PDF Space.

Translating a PDF

1. Open a PDF file in Acrobat Studio.
2. Select Translate this PDF from the tools menu.
3. Choose the desired language from the list of up to 40 available options.
4. Review the translated text provided by Adobe Express.
5. Save the translated document as a new PDF.
6. Share the translated PDF as needed.

Frequently asked questions

How does Adobe Express enhance Acrobat Studio's functionality?

Adobe Express provides tools for creating and editing visuals, such as generating images, designing pages, and creating charts and tables, all integrated within Acrobat Studio.

How can users collaborate with others in PDF Spaces?

Users can securely share PDF Spaces with others, allowing collaborators to access, comment on content, and use custom AI assistants.

What accessibility features are included in Acrobat Studio?

Accessibility tags are automatically added to documents, ensuring compliance and ease of use for all users.

Try for yourself — summarize, analyze, generate, and modify PDFs with generative AI.
