Session summary

In this webinar, Lori DeFurio, principal evangelist at Adobe, introduces attendees to Acrobat Studio, the newest addition to the Adobe Acrobat family. Acrobat Studio combines the tools of Acrobat Pro with advanced AI-powered features, including PDF Spaces, specialized assistants, and integration with Adobe Express Premium.

The session demonstrates how these tools streamline workflows, enhance collaboration, and simplify content creation. Attendees learn how to gather, analyze, and share information using PDF Spaces, create customized AI Assistants, and leverage new image editing and generation tools to produce professional, on-brand content.

Key takeaways

Acrobat Studio includes Acrobat Pro, AI Assistant, PDF Spaces, and Adobe Express Premium for an all-in-one solution.

PDF Spaces allows users to gather, organize, and analyze up to 100 files, links, and notes in one workspace.

Specialized assistants can be customized to analyze content and provide tailored insights for specific tasks.

New image editing and generation tools powered by Adobe Express enable users to create and modify visuals directly within Acrobat Studio.

Acrobat Studio is accessible across desktop, web, and mobile platforms, ensuring seamless workflows anywhere.

Step-by-step demo tutorials

Using PDF Spaces

1. Open Acrobat on your computer.
2. Navigate to the left-hand menu and select PDF Spaces.
3. Click Select Files to add up to 100 files (Word, PowerPoint, Excel, PDF, etc.) or drag and drop files into the workspace.
4. Click Create PDF Space to analyze and extract insights from the sources.

Viewing PDF Spaces Options

1. View the insights dashboard, which displays cards with extracted information and citations.
2. Use the left-hand navigation to explore Insights, Chat, Notes, and Sources tabs.
3. Share the PDF Space by selecting Share, choosing the access level, and adding recipients.
4. To add a hyperlink, copy the URL and paste it into the PDF Space.

Step-by-step demo tutorials

Creating a Specialized Assistant

1. Click Choose an Assistant select a pre-built option, or create a new one by naming it, adding a description, and saving it.
2. Ask questions or request summaries in the Chat tab and save responses as notes or copy them to the clipboard.

Adding Content on Mobile

1. Open the Acrobat mobile app and navigate to PDF Spaces.
2. Select the plus icon to add content.
3. Choose to add files, web links, or text, or take a photo directly from your device.
4. To capture a photo, use your device's camera, snap the image, and it will be added to the PDF Space.
5. Access specialized assistants and interact with the PDF Space via voice chat by asking questions.

Step-by-step demo tutorials

Generating a New Image

1. Open a PDF file in Acrobat Studio.
2. Select the edit tool and click the image you want to modify.
3. Select Generate Image.
4. Enter a prompt describing the desired image.
5. Choose image size and content type, then click Generate.
6. Select your preferred image and click Apply to replace the original.

Editing an Existing Image

1. Open a PDF file in Acrobat Studio.
2. Select the edit tool and click the image you want to modify.
3. Select Edit Image.
4. Use tools like crop, remove background, erase, or remove object.
5. For object removal, adjust the brush size, draw over the area to remove, and select the preferred result.
6. Save the edited image to your computer.
